Westbound Interstate 70 Blanchette Bridge Construction

- The 1958 Westbound I-70 bridge needs major rehab to ensure bridge lasts another 50 years
- \$63 million project scheduled from March 2012 to December 2013
- Westbound I-70 traffic detoured to eastbound I-70 bridge starting in November 2012 and lasting less than 12 months
- Eastbound I-70 bridge will have three lanes for eastbound and three lanes for westbound traffic during these 12 months
- Fifth Street access during construction
 - Westbound I-70 exit and entrance ramps open
 - Eastbound I-70 exit ramp open
 - Southbound Fifth Street to eastbound I-70 ramp open
 - Northbound Fifth Street to eastbound I-70 ramp closed
- Motorists are advised to flex work hours or considering alternate routes during morning and evening rush hours
- Route 370 is the signed detour to avoid the construction work
- Rte 364 to Arena Pkwy will serve as alternate to Downtown St. Charles
- Repair work to the I-70 bridges over Earth City Expressway will occur during off peak hours/weekends in summer 2012
- Repair work to the I-70 westbound bridge over Fifth Street will occur during spring 2013.
